

CHAPLAIN SHOUTS FOR SUNDAY BALL

Dickins Tells Engineers He'll Defend It, "by Lord Harry"

MEN NEED RELAXATION

Recreation Necessary, He Declares, After Six Days' Grueling Work

"We have Sunday baseball at the training replacement camps of the navy," Chaplain Dickins, of the Philadelphia Navy Yard, declared in addressing a luncheon of the Engineers' Club today.

Chaplain Dickins did not stand up to speak, but sat with his arm across the back of his chair and made the gathering a luncheon of the Engineers' Club today.

ICE SHORTAGE GROWS IN SUBURBAN TOWNS

Doylestown, Lansdale and Other Places Suffer—One Plant Suspends

Lack of help and the intense hot weather of the last two weeks has caused a serious shortage of ice in many suburban towns, especially Doylestown, Newtown and Lansdale.

All purchasers are warned to stretch their supply to the limit, and in some cases dealers take a record of each sale, so no person may not obtain more than a fair share.

Many ice plants are unable to maintain their daily production because of defective machinery. Delays are encountered in making repairs because help is scarce.

No ice is being manufactured in Doylestown because of the breaking down of the plant of Harry S. Frank. A small amount of creek ice is available.

This has been stored in small quantities by a few individual residents and is sold at the regular market price. There was not enough of this to meet the demand today and it was necessary for many families to send to nearby places for a supply.

There is also a serious shortage in Lansdale. Dealers there are limiting purchases to the minimum.

Residents of Newtown and other communities have been forced in many instances to cool milk and other food with running water, which is not desirable.

Last night's storm added to the suffering, crippling the telephone service. It was impossible to order from nearby places.

DISABLED POLICE TO GO Mills Summons Forty for Trial to Purge Payroll

Forty city patrolmen today were ordered to appear before the police trial board on charges of disability.

Assistant Superintendent Mills made this announcement immediately after having been formally detailed by Public Safety Director Wilson as acting superintendent, pending the return of Superintendent Robinson, who has been commissioned a captain in the army.

The acting superintendent has ordered the patrolmen to appear in court to clear their names. The cost of which is now \$26.35. He suggested that the men wear sweaters in the fall, when the weather is too cool for summer coats but too hot for winter ones.

ALIEN CRIMINALS ATTEMPT ESCAPE

100 Men, Including Anarchists and I. W. W.'s, Fight Gloucester Guards

DELIVERY FRUSTRATED

Nearly 100 aliens, most of them criminals, anarchists and I. W. W. members, held in the Gloucester Immigrant Station, today tried to escape.

The aliens, arrested in various sections of the country, were taken to Gloucester recently from Ellis Island and were awaiting deportation. An unrest had been apparent for a week or more, and today it developed that a concerted effort to escape had been conceived and partly carried out.

According to the plan one of the prisoners was to jump from a second-story window to create a disturbance and thus mask the main attempt at escape. The man made the jump, after a slight hesitation, but not before the soldiers guarding the house had become aware of the scheme.

Only one of the aliens reached the Delaware River from the wharf and he was covered immediately by a soldier's rifle and soon surrendered. The rest of the prisoners became frightened and confused and were easily herded back into the building.

Once inside, ill-temper at their failure, overcame them and a hand-to-hand struggle with the soldiers ensued in which nine of the supposed leaders were arrested and put in cells. One alien struck a guard with a heavy bar and had to be subdued by force.
